

I want to make a plea to keep KLOVE on the air. What an inspirational radio station. I have four children at home and I can turn on the radio and be assured that there will not be a song that mentions sex, drugs, or violence. What a godsend. In a world that takes God out of everything this radio station reaches out and ministers to millions that need it. Our troops can even listen to it in Iraq. Our country was built on the foundation of GOD, lets keep God in it by leaving this radio station on the air. Please.
